

LANDMARK #47 Roessler Winery (1893) 1902 N. Winery Street, Fresno, CA photographed by Spectrum Gallery

This adobe structure was built in 1893 and represents one of the few adobe wineries still standing, located on the site of the Estella Blanca Vineyards, founded in 1892 by F. M. Roessler. Chinese laborers dug the clay for the building's adobe bricks from nearby Dry Creek. Presently houses the Discovery Center.
